Design Philosophy: Intelligent Warmth Meets Style

Dual Collar System: The revolutionary hooded/stand-up collar design transcends traditional limitations. Hood mode provides comprehensive protection against rain and snow, while stand collar mode facilitates seamless transitions between indoor and outdoor environments

Figure-Flattering Cut: Expertly engineered long silhouette extends to thigh area, effectively covering hip and leg regions to prevent heat loss, while vertical lines visually elongate the figure, creating elegant proportions for heights between 155-175cm

Advanced Gray Color Theory: Meticulously calibrated gray tone offers exceptional coordination potential, maintaining the subtlety of neutral colors while enhancing outfit dimensionality through subtle tonal variations

Craftsmanship & Materials: Warmth Promise in Details

Constructed with high-density windproof fabric and precision zoning filling technology, ensuring uniform cotton distribution without cold spots. Scientific calculation of filling amount per square meter guarantees feather-light wearability while providing professional-grade warmth comparable to premium down. Quality manifests in every detail:
